

Rotary Magnetic Scale Nonius RMSN32-31-1.28-F-A

Ferrite ring KR173 on hub N163
ODxIDxH: (24,5x16,35H7x10) mm
Magnetized with 2 tracks the circumference
(Nonius)
Track1: 64 poles (Mastertrack)
Track2: 62 poles (Noniustrack)

Technical characteristics

- Magnetic Rotary Scale
- Robust, magnetically encoded ring
- For absolute measuring
- True angular division
- High accuracy

Benefits

- Non-contact, quick position measurement
- Perfect angular division
- 100% quality checked
- Wearless
- Resistant to dust, cooling lubricant emulsion, oil, etc.
- On request with quality protocol
