

## Rotary Magnetic Scale Nonius RMSN32-31A-1.28-E-S

Steel hub with glued-on elastomer disk  
Magnetized with two tracks (axially)  
according to iC-Haus Nonius MU5S\_30-32N

### Technical characteristics

- Magnetischer Rotationsmaßstab
- Robust, magnetically encoded ring
- For absolute measuring
- True angular division
- High accuracy

### Benefits

- Non-contact, quick position measurement
- Perfect angular division
- 100% quality checked
- Wearless
- Resistant to dust, cooling lubricant emulsion, oil, etc.
- On request with quality protocol
