

Family-run company with tradition and yet innovative? Yes, in the middle of Berlin-Zehlendorf BOGEN Electronic GmbH received the Top100 Innovator in 2018 in Germany. From development to production, the medium-sized company BOGEN is recognized worldwide as a specialist for exceptional, customer-specific magnetic solutions. In recent years, a young team has developed pioneering products with which we have grown strongly and want to continue to grow.

Starting as soon as possible, BOGEN is starting a new international project and is looking for you as an

Mechatronics or Software Project Engineer (m/f/d) in Berlin (Projektingenieur Mechatronik oder Software)

Your tasks:

- Develop a new exciting product from idea to series production
- Create mechanics, hardware and software for a device
- Develop minimum viable products and prototypes for early testing
- Integrate the device in web environment and into a mobile device
- Work in an international innovation project with partners in the UK and Portugal

Your profile:

- Interest in working in an agile work environment
- Practical experience in either product, hardware or software development
- Technical background in one of the subjects
- Self-learning attitude
- Very good team player
- Very good English and basic German written and oral language capabilities

We offer you a competitive income, a varied range of tasks and challenges under your own responsibility in an up-and-coming field. Please send your application documents, including project experience, availability and desired income, preferably by email to jobs@bogen-electronic.com. Your contact person is Ms. Sarah Meibert.

We take the protection of your personal data very seriously and treat your personal data confidentially and in accordance with the statutory data protection provisions of the EU General Data Protection Regulation (DS-GVO) and the Federal Data Protection Act (BDSG) and this privacy policy.
